

22 June 1971

MEMORANDUM FOR: D/ORD

SUBJECT : Transmittal of Requirements

Bob,

1. Forwarded herewith are two papers prepared by

[redacted], Chief Scientist/TSD, and, as you know, [redacted]

[redacted] point of contact for TSD-ORD matters.

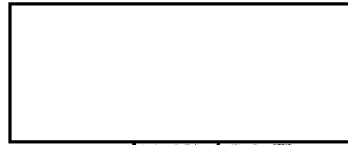

2. One sets forth in some detail the situation in TSD with respect to ORD projects which have been picked up by us for CS application. Its purpose is to give you some feel (and feedback) for the efficacy of the work you have been pursuing.

3. The other paper is an outline of the areas of technology which we feel limit what we can do today (and the foreseeable future) in providing technical solutions to some of the more pressing problems in the CS. It constitutes our current requirements for ORD. I assume that you will insure that your officers review in depth with their TSD counterparts any ORD action proposed in response to these priority requirements. You are already in possession of our TSD/D&E goals and priorities papers which may be useful to you as further background material.

- 2 -

4. Per our recent discussions, I look forward to an early opportunity to help you resolve priority issues with our other R&D colleagues around the Agency.
